SUSTAINABLE SOLUTIONS TO PRODUCTS & PACKAGES

While eco-friendly bag making is our core, we also adhere fair trade policy and expect all our supply chain actors starting from production of jute crop, fibre making millers, traders, jute fabrics manufacturers also share similar beliefs and attitude. We are responsible to factory workers for the conditions under which products and services are made. Women are especially encouraged to work with us while we maintain a gender policy that cater suitable and healthy working environment for women.

ABOUT

JUTE BAR, is an environmentally responsible business that designs, develop eco-friendly packaging solution of personal, businesses and households. We use jute fibre, which is renowned as the golden fibre that is bio-degradable and have highest tenacity in production of Jute.

CHILD LABOR POLICY

The government of Bangladesh have ratified the ILO convention on the worst forms of child labor 1999 (No. 182) on 2001. National legislation on hazardous child labor was subsequently revised in 2006, which had been in effect since 1987.

The Bangladesh Labour Act 2006 (Act XLII of 2006) also defines the "child" and the "adolescent" on the basis of age. As per section 2(8) of the Act, a person who has attained the age of 14 but below the age of 18 is considered to be an "adolescent" and as per section 2(63), a person not attaining the age of 14 is defined as a "child".

Jute Bar, is committed to negate the impact of employments of child labor and fully comply with the National Child Labor Policy 2010. Jute bar never employs any children under Age 18 years, in or as Trainee, Replacement, Casual, Apprentice, Temporary and or in Permanent works.

QUALITY CONTROL

Desired quality is a process work and need dedication and additional skills than most have. We have trained artisan who now working for many years in the industry have the required skills that can produce beautifully designed and crafted bags for household, personal or business usages.

WE WORK FOR DECENT LIFE OF VULNERABLE COMMUNITIES

Bangladesh has alleviated from low income country to middle income country, however still 20% of total 160 Million people live under below the poverty line due to development did not happened all layers of economic class.

We work for the farmers, a vulnerable, poverty stricken and climate risk prone areas. Cyclones, river erosion , floods are regular part of their struggle. These people are vulnerable to any risk, and merely surviving for better life. Empowering them by engaging Jute Diversified Product production, will empower them, provide them opportunities so that their children can go to school and family can have a decent life.

These women are very hard working and committed to the work, but also burdened with household chores, looking after their children, spend long working hours cooking for families! Joining us will also help this vulnerable group which also have every right to be happy and economically solvent.
